Division Categories control the grouping of divisions on reports.

Before you can setup Sales Items, you must set up Divisions and Categories. This document will guide you through these setups in Maitre'D.

Divisions

[Click to continue](#)

Setup Divisions:

- 1) Division Category
- 2) Division

This document will walk you through these setups step by step.

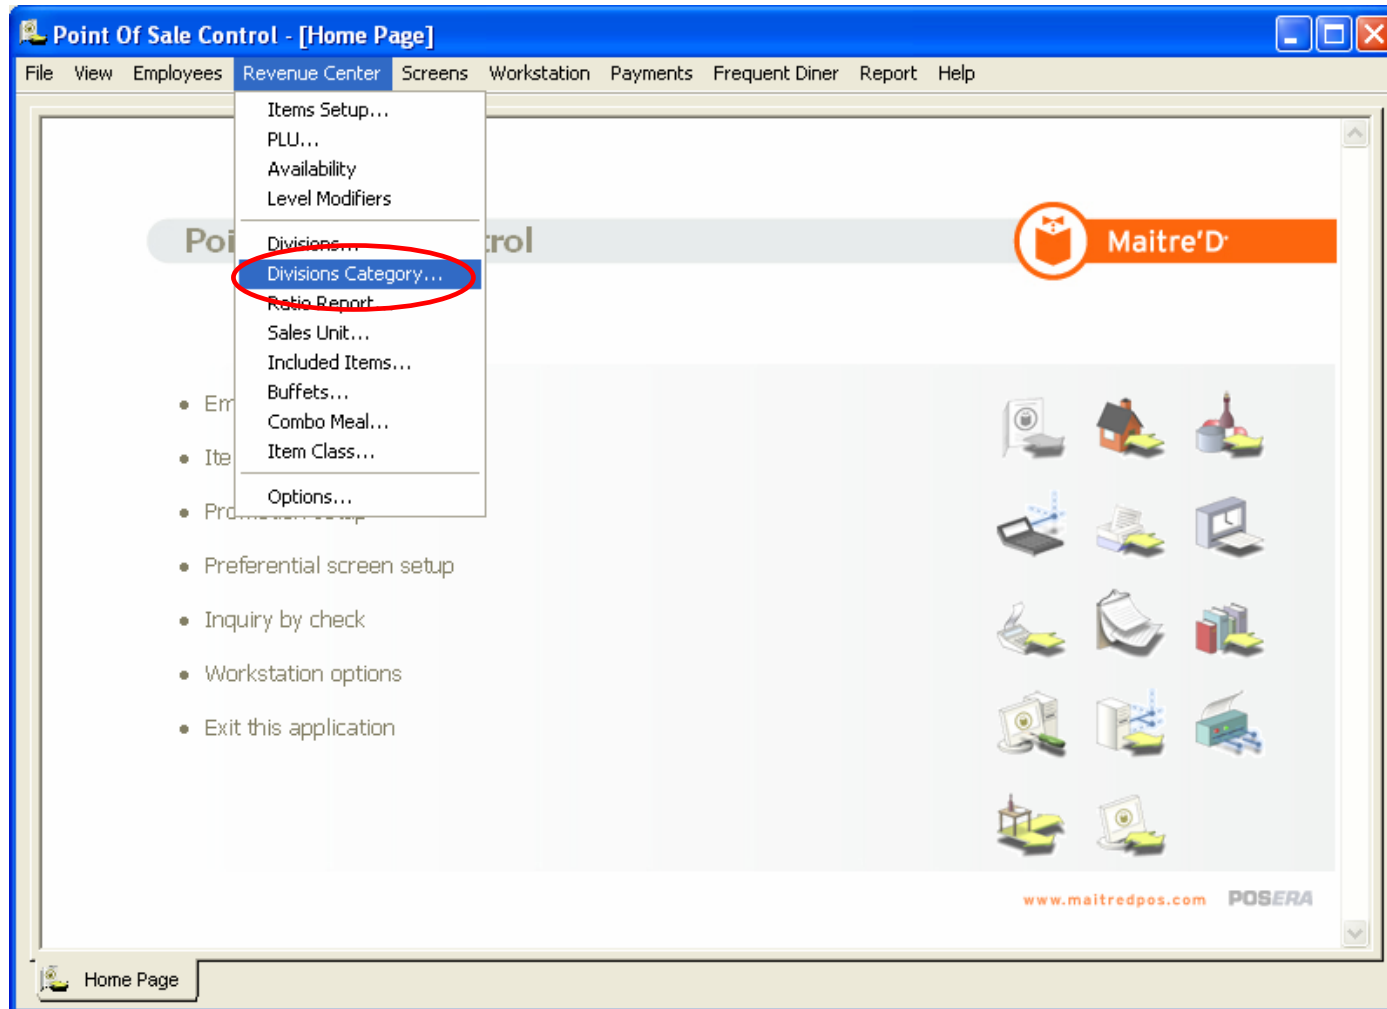

Step 1: Division Category

Step 1: Division Category

Click to continue

In the P.O.S. Control module, click on Revenue Center, then click on Divisions Category.

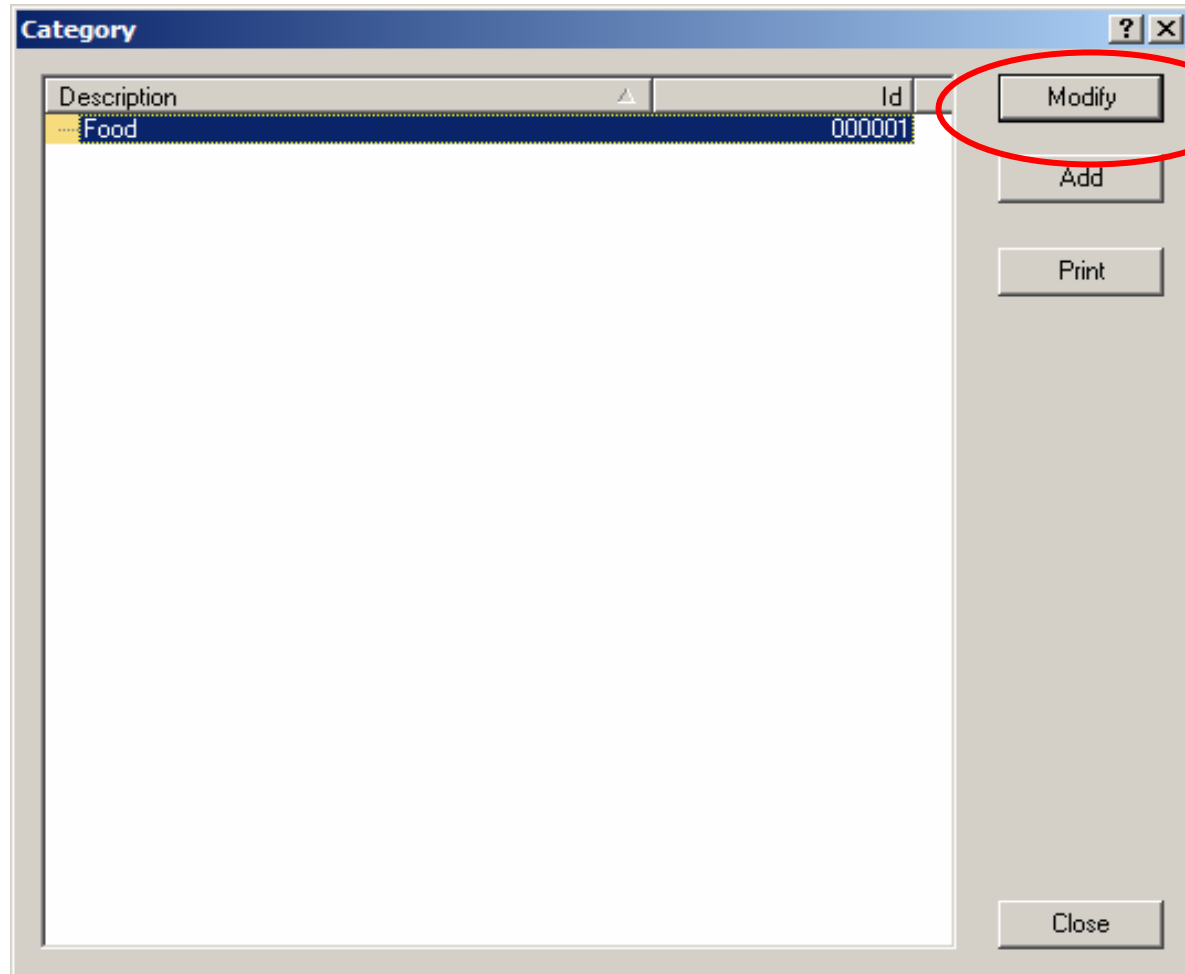

Step 1: Division Category

Click to continue

Division Categories are used by the Report Center to group different Divisions together. Click on MODIFY.

Step 1: Division Category

[Click to continue](#)

Enter a **Description** that will appear on the reports from the Report Center and the Point-Of-Sales. Enter a **Percent** if the server gives a portion of his sales as tips to another employee, such as the barman. This information will print on the server's reading only.

The screenshot shows a dialog box titled "Category - Record #1" with the following fields and options:

- Description: FOOD
- Percent: 3.00
- Printed on the check
- Pop and Snack category
- Buttons: OK, Delete, Cancel

Enable the **Printed on the Check** option to print a summary by division categories on guests checks. Note: The Division Category On Check option must also be enabled in the employee's configuration.

Click on OK.

Step 1: Division Category

Click to continue

Click on CLOSE.

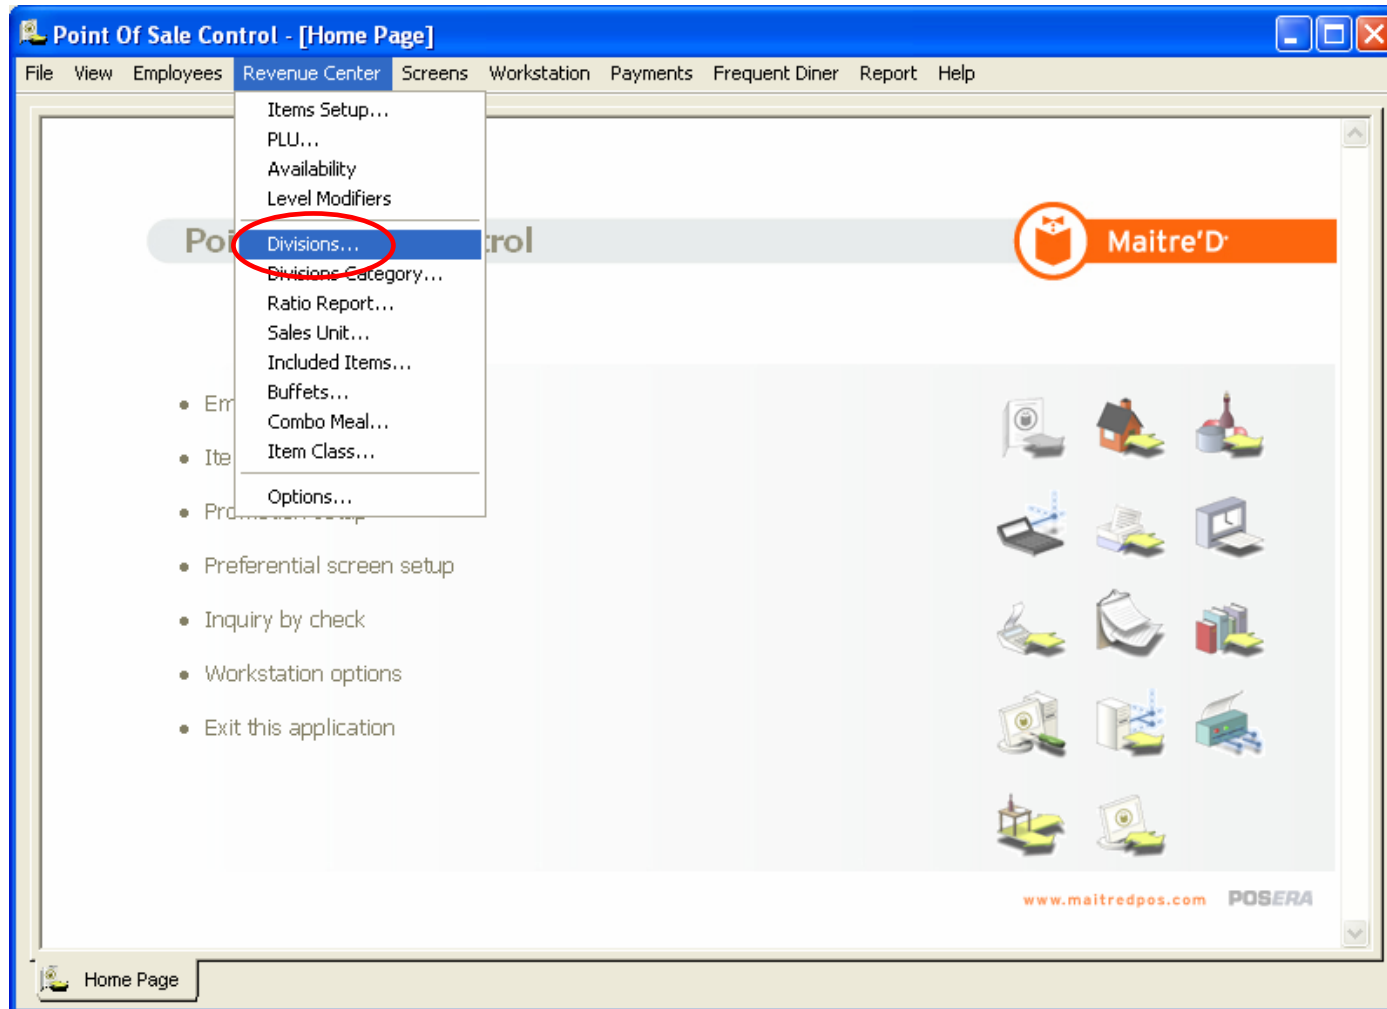

Step 2: Division

Step 2: Division

Click to continue

Click on Revenue Center, then click on Divisions.

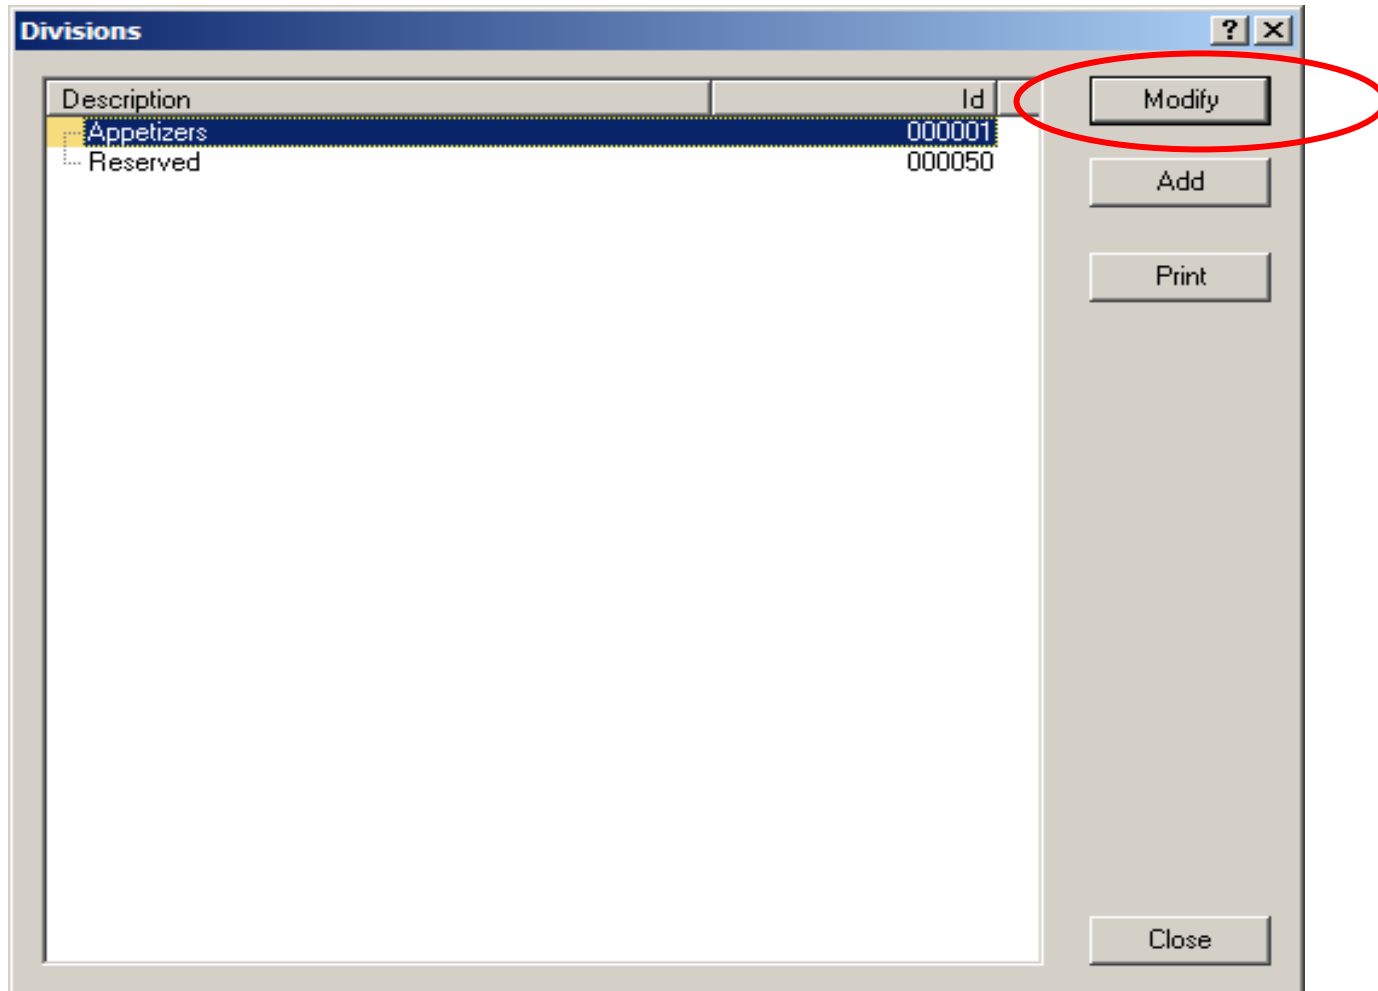

Step 2: Division

Click to continue

Click on MODIFY

Step 2: Division

[Click to continue](#)

Enter a **Description** that will appear on the reports from the Report Center and the Point-Of-Sales. Select the **Type**, or course, used to group sales items together on the Evaluation Sheet and in the Floor Management module.

Select the **Category** this Division belongs to.

-Note: The price change function can be used to change prices for all items in that division by either \$ or %.

The screenshot shows the 'Division #1' dialog box in the Maitre'D 2005 Setup application. The dialog has a title bar with a question mark and a close button. On the left, there is a tree view with the following items: Division (selected), Conditional Printing, Option, Report, and Tax. The main area is titled 'Division' and contains the following fields:

- Description: APPETIZERS
- Type: Undefined
- Category: Food (highlighted with a red circle)
- Frequent Diner: Undefined

Below these fields is a 'Price change' button. At the bottom of the dialog are three buttons: Delete, OK, and Cancel. The 'Apply' button is also present but is partially obscured by the 'Cancel' button.

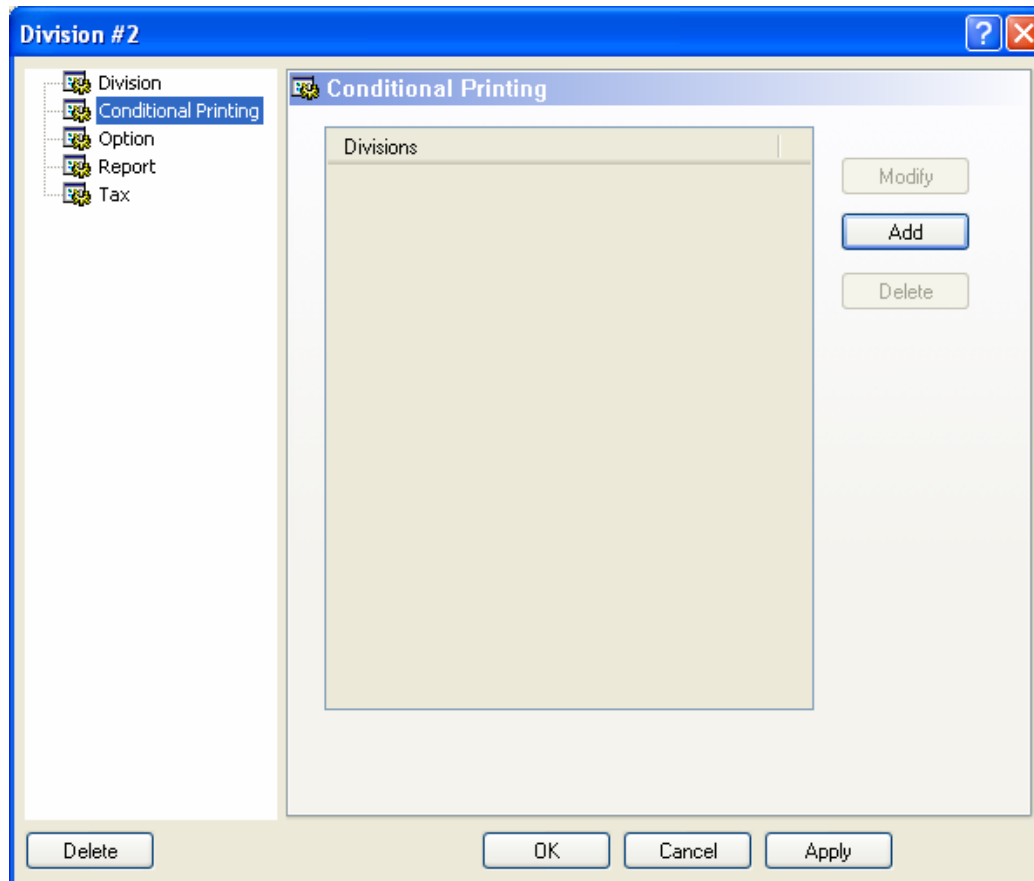

Step 2: Division

[Click to continue](#)

Conditional Printing links the printout of items of different divisions that go to separate printers. Requested items will print followed by a note to synchronize with other items on the order.

Note: Also enable the Use Conditional Printing option in P.O.S. Control / Employees / Configuration / Order

Click on Option.

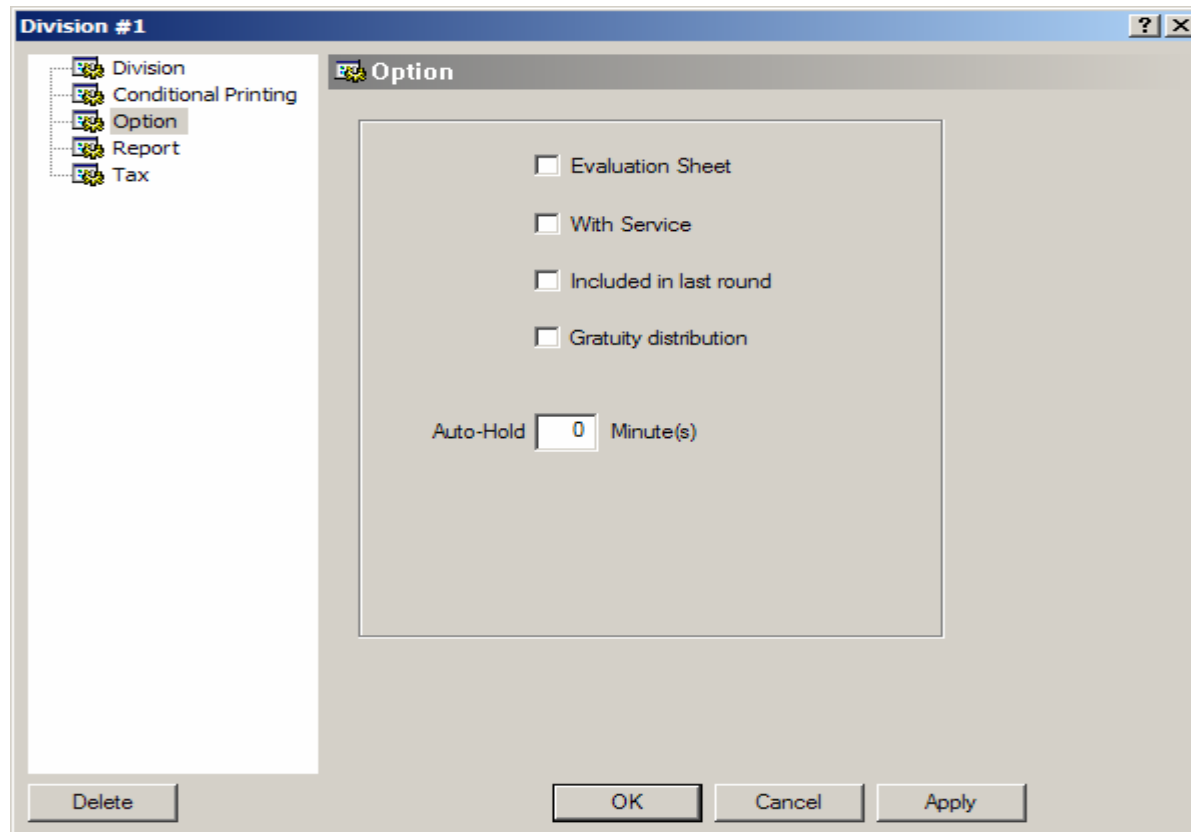

Step 2: Division

[Click to continue](#)

Enable the **Evaluation** option for the sales items in this division to print on it.

Enable the **With Service** option if a service charge is to be added to the check for items belonging to this division.

Enable the **Included in Last Round** option for all items belonging to this division to be available to the Last Round function of the Point-Of-Sales.

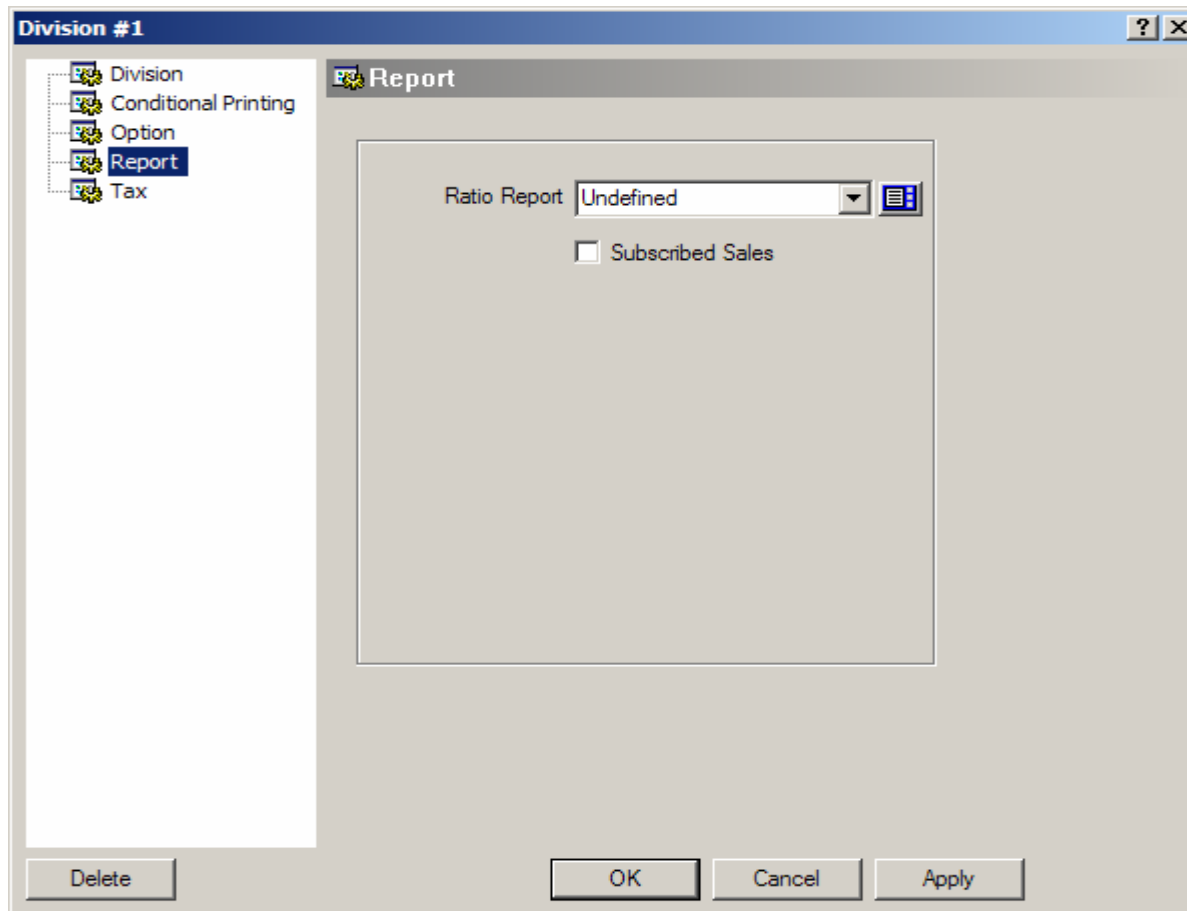

Step 2: Division

[Click to continue](#)

Select a **Ratio Report** from the list if the Inventory Management module is present on your license.
Enable the **Subscribed Sales** option if the restaurant has to pay a royalty on this division's sales.

Click on Tax.

Step 2: Division

[Click to continue](#)

Select the **First Tax** applied on these sales items.

Select a **Second Tax** to be applied on this division if needed, or select Undefined if only 1 applies.

NB : Tax 1 and Tax 2 must **NEVER** be the same and Tax 1 and Tax 2 should never be left blank.

Click on OK.

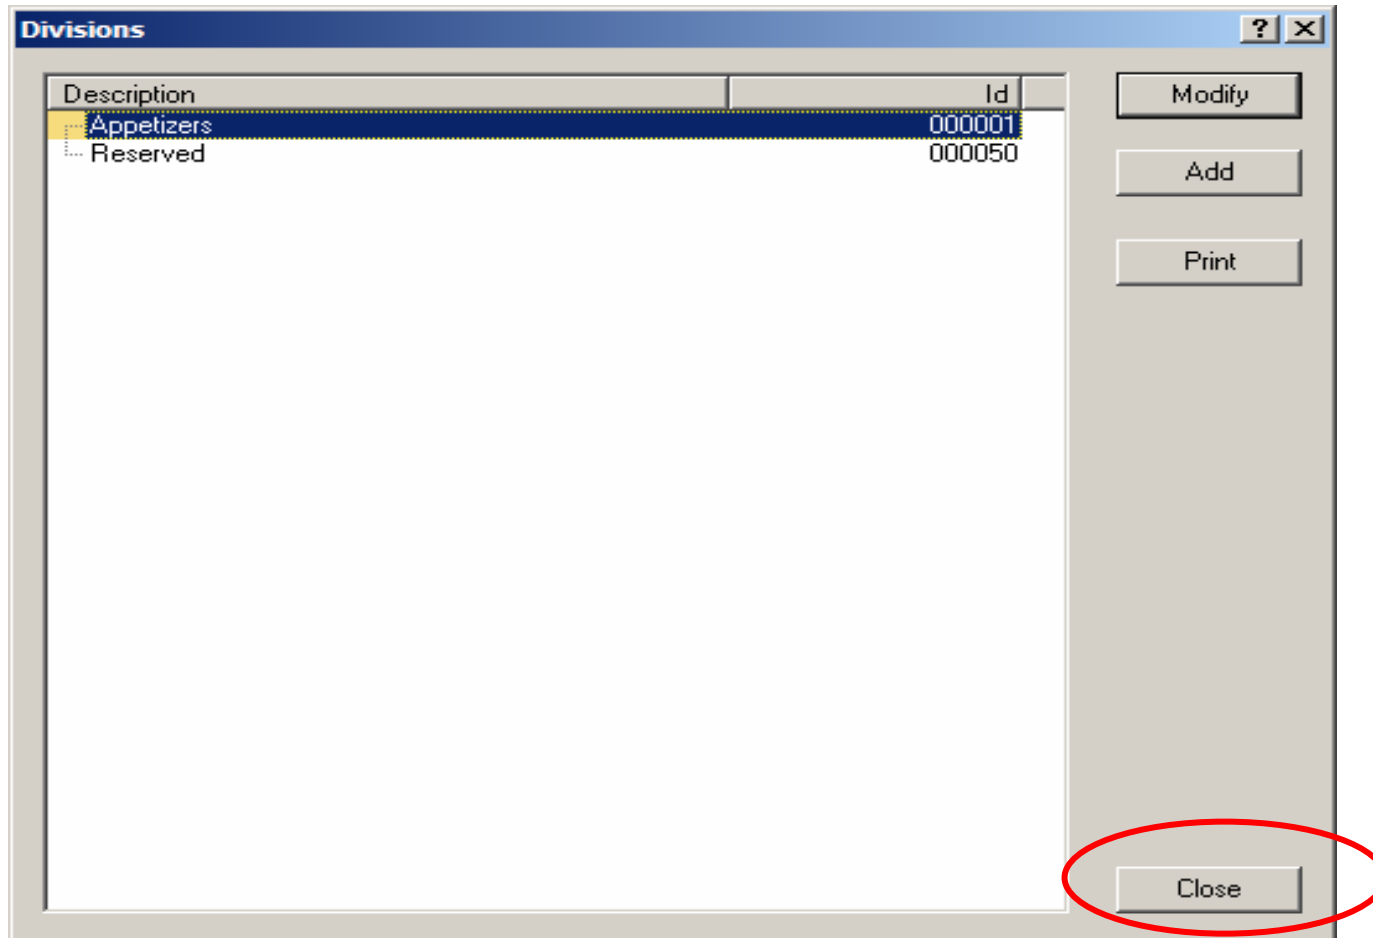

The screenshot shows a dialog box titled "Division #1" with a "Tax" tab selected. On the left, a tree view shows "Division", "Conditional Printing", "Option", "Report", and "Tax" (which is highlighted). The main area contains two dropdown menus: "Tax #1" is set to "Food tax" and is circled in red, and "Tax #2" is set to "Undefined". At the bottom, there are four buttons: "Delete", "OK", "Cancel", and "Apply".

Step 2: Division

Click to continue

Click on CLOSE.

This concludes the “Divisions” presentation.

We hope that this document helped you to understand the steps needed to setup Divisions in Maitre'D.

Refer to the “Items Setup” presentation for explanation on associating sales items with Divisions.
